Vol. XIX..... No. 72

The Senate has agreed to a subsidy to a Hawaiian cable.

LOS ANGELES is now in direct communication with Chino, via Ontario.

GOV. MARKHAM has signed the Barry contempt bill, which is now a law.

THE DISCOVERY of rich gold mines is reported in Nicaragua. Between gold mines and the canal, times are likely to be lively down on the Isthmus.

IN another column will be found particulars of a bill which is before the Legislature to increase salaries of county officers. We do not know how it is with other counties, but this county is in no mood at present to endorse such a large increase in the cost of running the county government.

SOME PERSONS or corporations who are interested in opposing electric railroads are publishing long reading notices in the San Francisco papers, showing—or attempting to show—that life and property are endangered by the heavy currents necessary to furnish motive power to electric railroads by overhead wires.

LOS ANGELES has received another recognition in the appointment to the responsible office of Supreme Court Commissioner of W. F. Fitzgerald, Esq. Judge Fitzgerald during his residence in Los Angeles has played a prominent part in the political world. His appointment will be hailed with pleasure by a large circle of appreciative friends and acquaintances.

IN acknowledging receipt of a copy of the report of the Los Angeles public library, the Secretary of the Battersea public libraries, London, England, writes in the following complimentary strain:

"I do not remember, in the nineteen years I have spent among libraries, a more interesting and encouraging account of progress and vitality than that contained in your report for last year. You set a grand example to the old-fashioned people on both sides of the Atlantic."

THE news from Washington that the Senate Finance Committee has reported adversely Stanford's bill to lend farmers money will excite no surprise, and least of all in the mind of Mr. Stanford, who, as we have already stated, never expected or desired the bill to pass. It has served his purpose in creating a favorable impression on the minds of some of the simpler sort of agricultural voters.

IGNATIUS DONNELLY—he of the Great Cryptogram—is bound to keep himself before the public. He has just brought a libel suit against an ex-Congressman, and St. Paul newspaper for \$100,000 each, the libel consisting in the accusation that Ignatius received large bribes when a legislator, between 1870 and 1880. If Shakespeare were alive he would probably sue Donnelly for libel pretty quick.

IT has been stoutly maintained by many old-timers that the land which Broadway would traverse in being cut through to Main street belongs to the city. In the Council, on Monday, the statement was made that the records show Broadway—Fort street—to have been dedicated through to Pico street in 1868, the land therefor belonging to the city. This is an important matter. If the city owns the land, the opening of the street should be much facilitated.

WHEN the resolution to approve the Stanford plan for loaning Government funds on farming lands was up in the Assembly, Dr. Noble Martin, who represents Placer county, offered as a substitute a resolution repudiating Congress to provide for Government loans on mines up to 60 per cent. of their value, such loans to be secured by mortgage of the mining ground and to bear interest at 2 per cent. per annum. The Chronicle thinks it is not easy to see why such a resolution is not entitled to quite as much consideration as the original resolution offered by Senator Wilson and adopted by the Senate.

## THE IMAGINARY GRIEVANCES OF SAN DIEGO.

The San Diego papers are still concerned about the asserted preference shown by settlers and tourists arriving in Southern California for Los Angeles and adjacent territory. The Sun suggests that San Diego establish a display of fruit, vegetables and minerals, in Los Angeles, to the end that eastern visitors may be "undecided" about the resources of that county.

As a test of this method of procedure, the Sun further suggests that the display be made at the second annual citrus fair of Southern California, to be held next month, should be the finest that can possibly be drawn from the orange and lemon groves of San Diego county.

Now, this is a sensible proposition—far more so than other schemes which have been ventilated in the city of bay and climate, from time to time, for the purpose of knocking out Los Angeles. This is fair, legitimate rivalry, which we welcome, and to which the leading citizens of Los Angeles will, we are sure, be prepared to offer all proper encouragement. For, in spite of our esteemed San Diego contemporaries, we maintain that the feeling of bitter hatred and jealousy of San Diego, which its papers are so fond of prating about, is but a fragment of their own over-heated imaginations. It is, of course, true that there are real estate agents, hotel-keepers, and other directly-interested persons here—as in any other city—who, in their anxiety to further their private interests, may deal in depreciatory remarks about San Diego—or any other place—persons who talk of going there. It would be strange if similar instances could not be found in San Diego, but we do not hold all the citizens of that place responsible therefor. As to the bulk of our people, if there is any such sentiment prevalent as that constantly referred to by the papers down south, it is unknown to us, as it probably would not be, did it exist. Of course, we indulge in a little goodnatured railraiy once in a while on the multifarious projects floated by our Southern neighbor—projects, many of which are excellent, if they could be carried out—but the San Diegans must indeed be touchy if they cannot stand an occasional joke of this sort.

Los Angeles is interested in the prosperity and progress of every part of Southern California—of San Diego, San Bernardino, Orange and Ventura as well as Los Angeles county.

IT has been stoutly maintained by many old-timers that the land which Broadway would traverse in being cut through to Main street belongs to the city. In the Council, on Monday, the statement was made that the records show Broadway—Fort street—to have been dedicated through to Pico street in 1868, the land therefor belonging to the city. This is an important matter. If the city owns the land, the opening of the street should be much facilitated.

WHEN the resolution to approve the Stanford plan for loaning Government funds on farming lands was up in the Assembly, Dr. Noble Martin, who represents Placer county, offered as a substitute a resolution repudiating Congress to provide for Government loans on mines up to 60 per cent. of their value, such loans to be secured by mortgage of the mining ground and to bear interest at 2 per cent. per annum. The Chronicle thinks it is not easy to see why such a resolution is not entitled to quite as much consideration as the original resolution offered by Senator Wilson and adopted by the Senate.

THE late Charles Bradlaugh owed much of his success as an orator to his fine stage presence. He was 6 feet 2 inches in height and magnificently proportioned. His gestures were most dramatic.

## A NATION MOURNS.

Over all the land, on lake and sea,  
Where'er a patriot breathes today,  
Flow silent tears in memory  
Of him whom Death just called away.

Sherman, the rare, the chieftain grand,  
The Patriot pure, brave wise and true,  
Obedient to the stern command,  
Hörtes to rest at Death's tattoo.

Sherman is dead! the Nation sighs,  
And all our hearts are wrung with grief.  
And other lands in reverence rise  
At mention of our fallen chief.

Oh, grand old dog, whose stripes and stars  
Were dearer far to him than gold,  
Drode lovingly the form whose scars  
Told more than words, a thousand fold.

His sword, that flashed o'er many a field,  
Now dressed in emblematic shade,  
Lies o'er a heart no known way told  
Except when Love and Duty bade.

The laurel wreath that crowned his brow,  
The ho'ld ass will never bloom,  
A grateful land will ne'er allow  
Its burial in the silent tomb.

His former foes are riven now  
With those who at his shoulder stood,  
Their hands with ours adora his brow  
With symbols of true brotherhood.

On stone, and page thro' every age,  
Shall true hearts write his deeds and name.  
And poet's song, and storied saga  
With bloom immortal crown his fame.

## STATE AND COAST.

Two San Diego hunters are slaughtered in 250 yards a day apiece.

The San Francisco trials of Koch's lymph on three consumptives are said to be giving promise of success.

Hugh J. Lynch, a guard at the San Quentin State prison, accidentally shot and killed himself on the evening of the 14th.

The Phoenix, of Riverside, is an appropriately named paper. It was burned out the other evening but promptly arose from its ashes.

The trial of the San José electric railway on First street was most satisfactory, and the cars will be in operation in a few days. It is said to be the first electric road in the United States.

About daylight on the morning of the 13th, thieves entered the merchant tailoring establishment of J. F. Koch, and stole a piece of cloth valued at \$75. Strange to say, none of the many made-up suits in the store were touched.

The Pomona Times says: One of the Boston excursionists, while here this morning, made the remark, after a ride through the orange groves, that there "was only one bad thing about this country," and that was that "if a man died here and went to heaven, he would probably be disappointed and want to come back."

It is stated that after the clothes worn by the late Mr. Patterson had been searched they were turned over to one of the employees to be put in the safe. He again looked through the pockets and found diamonds worth \$1000, in one of them. These he turned over to Mr. J. D. Patterson, who presented the man with a valuable horse in consideration of his entire honesty in the matter.—Hueneme Herald.

The California Fruit Grower says: "Mr. J. R. Farris is constructing a large scow, upon which he will place twelve-inch rotary irrigation pump. The scow will be moved up and down the banks of the Sacramento river to accommodate farmers who cannot otherwise obtain irrigation. If this is the acme of enterprise, where shall we find it?"

## BITS OF INFORMATION.

The underground system of telegraphs of the German Empire has a total length of 3600 miles.

The doctors of Harlem, N. Y., have discovered a lymph that, as a sure cure for consumption, puts Dr. Koch clear out of the race.

The greater quantity of hair from which wigs are made for England's judges, lawyers and clergymen comes from China, where it is cut from the heads of beggars, criminals and the dead.

The story is told of a monster egg that is being exhibited in the museum at Buda-Pest, Hungary. It is an egg of the prehistoric bird aepyornis, and few museums possess such a specimen; 148 hen's eggs would find room in it, and it would hold nearly nine quarts. It was found in 1850 in Madagascars.

## MEN AND WOMEN.

Maria Chattoway, formerly custodian of Shakespeare's birthplace, is dead.

Mrs. M. Louise Edwards of Annapolis has been appointed to the chair of oratory at Alma College in Illinois.

Mr. Jay Gould is very ill. Mr. Jay Gould is as well as usual. This is the latest news about the Wizard of Wall street.

The skull of Mozart, which was stolen by a gravedigger, is now in possession of the Mozart museum of St. Petersburg.

The late J. H. McCullough, of the Pennsylvania road, will live in financial history as the man who successfully outgeneraled Gould and the Vanderbilts.

The marriage of John Jacob Astor and Miss Ava Willing in New York on the 16th, was one of the greatest society events which has occurred in the past month.

Ex-Attorney General Garland has located permanently in Washington. He has a fine practice in the Supreme Court. He came from Arkansas, but he was always a good lawyer.

Tolstoi's niece has transcribed "War and Peace" for the use of the blind. The book, which is the outcome of two years' constant labor, is in raised characters and numbers 5000 pages.

Ulysses S. Grant, Jr., accompanied by his wife and family, was in New Orleans a few days ago, having just returned from a trip through Mexico. The family expect to make a tour through California before returning East.

## POLITICAL POINTS.

A large linoleum factory, employing hundreds of men, is to be removed from Manchester, Eng., to Muskegon, Mich. Charge this also to the "inauspicious" McKinley Bill.

The sensational report that Senator-elect Bruce had decided to abandon politics and retire to private life, recalls the aphorism—"few die and none ever resign"—which is never so true as when applied to Ohio politicians.

It is understood in political circles at Washington, that Congressman Hatch of Missouri will have the solid support of the Alliance members in the House of Representatives.

Editor Peffer, the new Senator from Kansas, is described as the possessor of a gruff voice, but low-toned voice, issuing from a sea of long, dark beard, flowing nearly to his waist; but whether this remarkable appearance is expected to terrify the Senate into a compliance with the demand for loans at 2 per cent. on any variety of securities, is not made clear.

The late Charles Bradlaugh owed much of his success as an orator to his fine stage presence. He was 6 feet 2 inches in height and magnificently proportioned. His gestures were most dramatic.

## A WIFE-BEATER.

Trial of A. J. Lawrence at Santa Barbara,

## ON THE CHARGE OF UXORCIDE

A Meek, Smooth-looking Citizen With a Long Career of Inhuman Brutality—Demure but Devilish—The Crime.

SANTA BARBARA, Feb. 14.—[Correspondence of THE TIMES.] This city is already crowded with witnesses and prospective jurors in the case of the People vs. Dr. A. J. Lawrence, whose trial for the murder of his wife will begin here, tomorrow.

The criminal calendar of this State, like those of nearly all the western States and Territories, have been darkened by many atrocious and fiendish deeds of depravity, but none of them contain more appalling features than this one, if the general opinion of the community is anything like a true criterion in the premises. Another remarkable feature of this case is that the defendant looks anything other than a criminal. He is tall and commanding, has an intelligent and pleasing appearance, and a face that is "child-like and bland." I should regard him as a perfect type of the Sunday-school superintendent of the period.

That he is something quite different in character may be inferred from what follows:

According to the most trustworthy information, this male biped has amused him self for fourteen years in the exhilarating and delectable pastime of beating his wife. She seems to have endured this treatment with a resignation and fort

The Great Floods of 1884 Being Repeated at Pittsburgh.

Ill-fated Johnstown Again Suffers From a Mighty Inundation.

Water Pouring Through the Streets of Allegheny City—Rivers Overflowing in West Virginia and Ohio.

*By Telegraph to The Times.*  
GREENSBURG (Pa.) Feb. 17.—[By the Associated Press.] Streams continue to rise and people living in the low lands are making preparations to move at any moment. The creek at West Latrobe is half a mile wide and much of the town is submerged. Second and third stories of buildings along the creek are being flooded. The same condition of affairs prevails at Laramie, Manor, Penn., Harrison City, Crabtree and other places. Bridges, fences and haystacks in every direction have been carried away.

FREEPORT (Pa.) Feb. 17.—Rain has been falling steadily during the last forty-eight hours, and the town and surrounding country are flooded. At noon the water was two and a half feet deep in the streets, and rising.

WEST NEWTON (Pa.) Feb. 17.—The Youghiogheny River this afternoon reached the highest point since August of 1884. Much damage has been done to railroads by landslides.

HUNTINGTON (Pa.) Feb. 17.—Rain has fallen here in torrents for thirty-six hours, and the Juniata River is a mile wide. Citizens of Fortstown and Smithfield are compelled to vacate their homes, and many bridges have been swept away. The loss is very heavy.

At McKeesport the ironworks and mills are submerged. Much damage has been done in the lower portion, many people being compelled to abandon their homes.

FLOODS AT PITTSBURGH.

PITTSBURGH, Feb. 17.—The present unexpected flood bids fair to rival that of 1884. The river has risen all day, and is still going up tonight. Allegheny City has suffered most. Several streets are under water, and at least one thousand cellars are flooded. Great apprehension is felt there as two natural gas explosions tonight have endangered life and ruined property. It is feared others may follow as meters and pipes are several feet under water and cannot be reached.

The mills along the river have shut down because of flooded fires and thousands of men are idling about the river banks.

On the Pittsburgh side cellars and houses on the low grounds are flooded and people are beginning to move out. Any further rise will do great damage, as the high water limit has been passed. Even now it is reported that the exposition and other large downtown buildings have been greatly damaged. All street-car lines between Pittsburgh and Allegheny City have stopped running, owing to the fact that the approaches are several feet under water. Scores of drays and boats are engaged in hauling anxious people through the water to the bridges.

PITTSBURGH, Feb. 17.—Late tonight an explosion of gas blew out the entire front of No. 8 Lackow street, Allegheny City. Five persons were in the house, all of whom were severely injured, but only one fatally. The flooding of the cellar caused the accident.

ILL-FATED JOHNSTOWN.

At Johnstown the dreadful Stony Creek and Conemaugh rivers stood at the highest point all day. The heavy stone bridge caused the water to back up into the town, a greater portion of which is from four to six feet under water. Every house in Cambria City is deserted, and the swift stream flows through the streets. Late tonight the rivers at these points began to fall rapidly, but the people will not attempt to return to their houses until assured that the flood is over.

HIGH WATER IN OHIO.

MASILLON (O.) Feb. 17.—Streams south of this city are badly swollen by the heavy rains of the past three days. All dwellings in the lower part of the city are surrounded by water. Railroad trains are badly delayed by washouts.

At Steubenville the river is rising at the rate of one foot per hour, and railroads have been forced to suspend traffic in many places in the vicinity on account of high water.

WEST VIRGINIA FLOODS.

WHEELING (W. Va.) Feb. 17.—The greatest flood for many years is expected here. Reports from all sections of the State indicate unusually heavy rains and that streams are rising rapidly. All railroads entering the city are blocked by landslides.

THE MOHAWK RISING.

SCHENECTADY (N. Y.) Feb. 17.—There is a gash in the Mohawk river near here. The river is rising ten feet per hour tonight, and nothing but tree tops tell where the islands are.

WASHINGTON NOTES.

The House Committee Still Hearing Silver Pros and Cons.

WASHINGTON, Feb. 17.—[By the Associated Press.] Before the House Committee on Coinage today ex-Congressman Warner of Ohio, chairman of the National Silver Committee, made an argument for free coinage.

Congressman-elect Warner of New York protested against additional silver legislation.

Stephen W. Nicholson of Boston, said it was untrue that New England was a unit against free coinage, and asserted that many people in that section were in favor of additional silver legislation.

Representative McClammy of North Carolina introduced in the House a resolution reciting that the people demand financial reform, which cannot be carried into effect without the passage by Congress of the Sub-treasury and Free Coinage bills; discharging the committees from consideration of the measures, and ordering both to be reported back to the House for immediate consideration.

**LAST APPROPRIATION BILL.**

The last of the appropriation bills, the General Deficiency Bill, was reported to the House this afternoon. It carries a total of \$26,754,898, a large part of which (\$25,678,832) is on account of pensions. Some of the other items are: For relief of the drought sufferers in Oklahoma, \$50,000; for payment to the Pacific railroad for transportation service, \$2,265,000; an appropriation of \$10,000 is made to pay for an expedition of a committee of seven members-elect to the next House to investigate Alaskan affairs etc.

**SEVENTY-SIX ROUNDS.****THE NEEDHAM-RYAN FIGHT AT MINNEAPOLIS.**

The Californian Whipped by the Chicago Bruiser—Ryan Is Now Welter-weight Champion of the World.

*By Telegraph to The Times.*

MINNEAPOLIS (Minn.), Feb. 17.—[By the Associated Press.] Twelve hundred people gathered in the club rooms of the Twin City Athletic Club tonight, to witness the much-talked-of fight between the welter-weights Danny Needham of California and Tom Ryan of Chicago for a purse of \$1000, eight-hundred dollars to the winner, Queenberry rules to a finish. Needham weighed in at 137½ and Ryan 139. Joe Mannix was chosen referee. Four ounce gloves were used. There had been much talk during the day about Needham's hands being in bad shape, and that he would fight with them in a plaster. The Ryan men strenuously objected to this, but the directors of the club, to the surprise of everyone, allowed the plaster to go. The men entered the ring at 9:15. Betting was then about even.

The first round ended in Needham's favor after a sharp interchange of blows with no harm done. Ryan then forced the fighting, but Needham countered successfully, and so the fight went on round after round without any apparent damage on either side. In the fifth Ryan poked his left into Needham's left eye, partly closing it, and thereafter persistently tried to disable the other one, his tactics being evidently to blind Needham. The latter was guarded, however, and kept playing for Ryan's wind. They then took changes at chasing each other, and Needham's face began to show signs of punishment.

In the twenty-seventh round Ryan rushed right and left, getting in three good blows, and driving Needham against the ropes. Needham, at this time, and for several rounds after was not using his right.

In the thirty-first Needham forced the fighting, and in a clinch Ryan tried to throw him. Needham received a hot right-hand smash which swelled his upper lip.

In the thirty-fourth Ryan opened with an awful right, which sent Needham to the ropes. The latter then began using his right again freely and there was some vicious fighting.

In the thirty-fifth and thirty-sixth rounds Ryan got in two more good smashes on Needham's ribs, but without doing much apparent damage.

In the thirty-seventh the fighting was fast and furious, but ended in Ryan's favor.

Needham's face showed evidence of severe punishment, but both men, aside from that, appeared in good shape, and so it went on, many blows being exchanged without visible result, each taking turns in rushing the other until the fifty-second round, when Ryan rushed Needham to the ropes, and narrowly escaped a knock-out blow.

Up to this time sporting men pronounced the fight one of the most scientific ever seen. Not a foul had been hit or claimed.

At the end of the sixtieth round, at 1:30 a. m., the referee announced that he understood the fight was to be a finish and that he would make the men fight. The men resumed fighting with vigor. Up to this time Ryan did not show a mark of punishment.

At 2:20 a. m. President Harris of the Twin City Club again announced his intention of making the men fight to a finish. Up to this time nearly three rounds had been fought and the men were simply walking around each other.

In the seventy-fourth round Needham forced the fighting, but did little damage. He got in a smash on Ryan's face and Ryan returned it almost scoring a knock-down.

In the seventy-fifth the fighting was hot and fast, and Ryan scored first blood. The audience went wild. Desperately fighting followed.

In the seventy-sixth, Ryan knocked Needham down with his left. There was a clinch and Needham went down again. Ryan then upper-cut with right and left, knocking Needham down repeatedly, and only the call of time saved him from being knocked out. As it was he was carried to his corner in a dazed condition.

Before time was called again his seconds threw up the sponge. Ryan's admirers went wild, and as the audience dispersed were hugging and tossing him; Tommy Ryan is now the champion welter-weight of the world.

**FROM HAWAII.**

Preparing the King's Obsequies—Mortality on the Islands.

SAN FRANCISCO, Feb. 17.—[By the Associated Press.] The steamship Australia arrived today from Honolulu. The Hawaiians were employed, when the steamer left, in making final preparation for the burial of King Kalakaua on the 16th inst. Nothing is said by the papers regarding Queen Liliuokalani's health, but alarm is expressed at the rate of mortality among the native Hawaiians as shown by the monthly reports. For January there were fifty-six deaths in Honolulu, and of these forty-two were Hawaiians. These figures, it is stated, fall below the records for some other months.

**STANFORD SNUBBED.****HIS LAND-LOAN BILL REPORTED ADVERSELY.**

The Committee Compares It with Various Wildcat Schemes—it Could Only Result in National Disaster.

*By Telegraph to The Times.*

WASHINGTON, Feb. 17.—[By the Associated Press.] Under instructions from the Committee on Finance Senator Morrill, chairman of that committee today reported adversely Stanford's bill "to provide the Government with means sufficient to supply the national want of a sound circulating medium," involving loans on lands at 2 per cent interest.

The report contends that land owners will be the only class to be benefited and are too prudent to cover their homesteads with mortgages and even young men starting in life when borrowing capital intend to remain years in debt, but the low rate of interest offered to land owners might inspire improvident habits and extravagant speculation in the mass of the people, not free from such temptation. The report says:

The bill endorses the principle put forth by the bill introduced by James C. Lovell.

Experience has shown that whenever such reckless experiments intended to secure cheap money, have been tried, they have ended in commercial crisis, bankruptcy and national disaster.

The report compares the measure under discussion with the Argentine Republic and colonial currency schemes, both of which, says the committee, resulted in shame and disaster.

Ripley, deceased, situated in the City of Los Angeles, State of California, and more particularly described as follows:

Plot one acre (1/4) of the south end of the west half (W. 1/2) of the west half (W. 1/2) of the southwest quarter (S. W. 1/4) or section thirty-three (33), township one (1), north range eight (8), west half (W. 1/2) of the block, described as follows: Commencing at a point thirty (30) feet north of the south west corner of said section; thence west thirty (30) feet and thirty (30) feet east to the west line of said section, sixty-two (62) rods, thirteen (13) and one half (1 1/2) feet; thence east and parallel with the west line of said section thirty (30) feet and thirty (30) feet east to the south line of said section; thence south and parallel with the west line of said section one-half (1/2) rod, two (2) feet; thence south one-half (1/2) rod, thirteen (13) and one-half (1 1/2) feet; thence west thirty (30) feet and thirty (30) feet east to the west line of said section, sixty-two (62) rods, thirteen (13) and one-half (1 1/2) feet; thence east twenty (20) per cent to accompany bid, plus expenses of sale, upon confirmation of sale, by the Superior Court. Deed to be executed by the purchaser, R. H. RHODES, Receiver for Administrator.

**FOR SALE.**

**TWO HANDSOME RESIDENCES.**

The finest residence in Los Angeles for the price. Large handsome house, substantially built, finished and decorated, in costly style throughout, with all modern improvements and conveniences, everything in perfect condition. Fine stable, cottage for servants, new gas machine, and everything that could be required in a first-class suburban residence. The house is all that can be desired and is only offered for sale because of intended removal from Los Angeles.

The property is located in the city limits, on the road to Pasadena, trains on the Cross Road stop within two minutes' walk from the grounds, thus making it as easy to reach as any place in the city.

The grounds contain over one acre and have been improved without regard to expense. We know of no property in the city that has been so well and carefully planned. This property is offered at \$22,000, and is offered for \$10,000.

We also offer a finely finished house of nine (9) rooms, with 100' x 150', and large stable, paneled room, and tank house, everything in perfect condition and ready for occupancy, for \$6000.

This place is located on Palm ave. near the corner of 1st and Hill. The house cost the owner nearly \$20,000, and is offered for \$10,000 to make immediate sale.

The house is very finely finished inside, with white walls, paneled rooms, paneled doors, paneled mantels, etc.

Both the above properties belong to the same person, and are offered for sale in connection with the removal of the owner from Los Angeles.

**SAN FRANCISCO MARKETS.**

**SAN FRANCISCO.** Feb. 17.—**Special to THE TIMES.** Trade this morning showed slight improvement, although there was but little change in prices throughout the general market. Potash was still weak, but indications point to better prices. During the past few days there has been a better feeling in cabbages. The recent rains have played havoc with them, and it is stated they are becoming scarce. Starr Judson shipped a carload north this morning, and sold 100 boxes of asparagus. Some were received this morning in the dry produce. Eggs are quiet at comparatively low prices. Butter shows a weakening tendency. Heavy arrivals are looked for during the next few days.

The produce markets generally were quiet this morning and prices unchanged.

## TUESDAY'S BUDGET.

**What Happened in Pasadena Yesterday.**

### THE SAN JOSE SCALE HERE

A Matter That Demands Attention—Lively Times at Olivewood—Personal Notes and Brevities.

It seems almost incredible that owners of citrus and deciduous fruit-trees, after being forewarned, will allow their orchards to be practically destroyed by the scale; and yet such is the case.

Inspector Richardson said yesterday that there are a great number of trees infested, especially by the red scale, and that the owners have taken no steps to eradicate it. One man, it is said, refuses to do so because he wants to fight the Horticultural Commission.

Comper's spraying outfit of Los Angeles, which did considerable work here, has left town after they could find no more orders to fill. As a result, if a man wants to spray his trees, it is an expensive operation, both as regards time and money, as he has to prepare an entire outfit for himself.

The existing state of affairs is much to be deplored. If the scale is allowed to spread many trees will be lost. This, indeed, is likely to happen, as people are more apt to become indifferent when no spraying outfit is procurable.

Mr. Richardson offers what seems to be a very sensible suggestion. It is that the city purchase a spraying outfit for use within the borough limits. Thus the scale-destroyer would always be at hand. It ought to prove a paying investment, and if properly presented to the city trustees the matter would at least receive careful consideration.

### OCLUSATION AT OLIVEWOOD.

Kisses at Twenty-five Cents Apiece—A Wager Won.

For a wide-awake suburb Olivewood takes the plum. The residents of this pretty section of town claim they have more fun and excitement than they can attend to, and assert most positively that they couldn't be persuaded to live anywhere else.

Sunday evening last, however, an event occurred that made even the friskiest of the natives open their eyes with astonishment. It was in front of the church on Lake avenue, just prior to the beginning of the young people's prayer and praise meeting. Outside the door a group of pretty girls were gaily chatting; inside two young men sat, absorbed in earnest conversation. In a moment one of them arose, leisurely walked through the open door, went up to where the pretty girls were standing and without a moments warning picked out one of the prettiest in the group and gave her two kisses, the echoes whereof resounded far and wide. Then the bold, bad youth reentered the church before any one had fully realized what had happened.

Of course intense excitement followed. The girls were highly indignant—the one because she had been kissed; the others because they hadn't. Meanwhile the cause of all the commotion was calmly waiting for the meeting to begin, happy in the contemplation of a new half dollar that had come to him as the result of a wager, he receiving at the rate of 25 cents for every kiss implanted on the face of the lady in question.

The meeting which followed was in a measure disturbed by strange snickering which eyer and anon smote the night air, and the remembrance of the thrilling episode is still green in the memories of all who witnessed it.

### FAILED TO MATERIALIZE.

Inquiring Holders of Star Course Tickets.

Nothing has been heard of the remaining entertainments of the Star lecture course since the Swedish quartette performed here, and it looks as if those who paid their dollar for a course ticket have been duped out of the other two entertainments. It is given out that G. A. Courvoisier of Los Angeles, the manager of the Star lectures for Pasadena and other towns, has left for other parts, taking with him the money paid on the course tickets.

We are informed by S. J. Fleming, president of the Chautauqua Assembly of Southern California, that he has the sole right for the Star lectures for the city of Los Angeles, and he has kindly consented to honor all tickets sold in Pasadena. The next in the course will be given in Los Angeles at the Simpson Auditorium on this evening, and all who hold the Green course ticket will be admitted without extra charge. About one hundred tickets were sold in Pasadena.

### ANOTHER CONGREGATION LEFT OUT.

Rev. J. H. Clark of the Holiness Church says that the Y. M. C. A. is leaving out the Universalists at their recent annual meeting also failed to include himself and congregation. He says he was given no notice of the meeting and that the usual service was held at his church that evening. He is at a loss to know why he was slighted, as he represents a denomination organized under the laws of the State, and which includes in its membership—as he thinks—as consistent Christians as can be found in the other churches. He is of the opinion that the Y. M. C. A. would sail under a more appropriate title if the "C" was omitted.

It might be better if the Association would cease to hold anniversary meetings.

### The Railroad Rate Squabble.

Secretary James Kelly of the Railroad Commission arrived in Los Angeles yesterday and will come to Pasadena at 10:30 o'clock today over the Terminal road to meet City Attorney Arthur and all interested citizens on the matter of the recent raise in rates, made by the two roads passing through town. The case will be thoroughly investigated, and if anybody has anything of importance to say relating thereto they will be given an opportunity to do so.

### BREVITIES.

The price of hay will soon take a drop.

Fred Cowley was out from Los Angeles yesterday.

Yesterday's overland arrived four hours behind time.

Mrs. W. W. Mills will assume the

management of the Carlton the 1st of next month.

There will be a bowling match at the Raymond this evening.

Col. Pratt is now operating one of the largest chicken corrals in town.

The weather is still threatening and the weather-wise predict more rain.

The tennis court at the Hotel Green has been marked out, and is now ready for use.

Some of the recent Raymond arrivals enjoyed a pleasant outing yesterday in a four-in-hand.

The hop at the Hotel Green yesterday evening was well attended, and all present had a good time.

The next rehearsal for the *Mikado* will be held tomorrow evening at Morgan's Hall, postoffice block.

English sparrows are becoming very numerous in this vicinity and are especially destructive to the blossoming fruit trees.

By special request Luther Benson lectured again in the Tabernacle yesterday evening. He is an able and interesting speaker.

Mr. and Mrs. Carl A. Johnson left yesterday for San Francisco, en route to Washington, D. C., by way of Panama. They will reside for a time at the National Capital.

An interesting meeting of the Mengo-avenue Chautauqua Circle was held Monday night at the residence of F. D. Stevens. The programme has already been published.

Inspector C. H. Richardson expects to display over twenty varieties of oranges in the Pasadena exhibit at the citrus fair. There are few growers in the State who can do as well.

Rev. Mr. Alderson of Washington Courthouse has declined the call to the pastorate of the First Presbyterian Church of this place. His congregation refuse to let him leave them.

A pastor of town suggests that a union service be held in one of the churches tomorrow morning, in memory of the late Gen. Sherman, whose funeral takes place on that day. A good idea.

A. A. Adams, who recently returned to this place from Redondo, has gone into his former occupation of blacksmithing on Raymond avenue. He has formed a partnership with L. Craig.

Mr. and Mrs. Hertel left Monday for San Francisco, called there by the ill-fated Mrs. Westervelt, Mrs. Hertel's mother, who returned from Berlin not long ago, where she had been under medical treatment.

Mr. Nelmes' gauge on the western side of town invariably registers a greater rainfall than does that of Dr. Rigg on the east side. Both gentlemen are of the opinion that the western side of town catches more rain than any other section.

A. W. Roach, in discussing the subject of prices charged for commutation tickets between here and Los Angeles, said that for a long time he traveled out of Chicago a distance of sixteen miles for \$5.85 a month. The ticket, moreover, was not of the punch-order kind, but could be used as often as desired during the month.

The recent article in these columns relative to the rich oil wells in Ventura county was read with interest here, as some of our citizens have money invested in the locality mentioned. A gentleman pretty well up on this subject, said yesterday he thought plenty of oil could be struck in the lowlands south of town.

**ELSIOR.**  
Points About the Valley—Work of the Woman's Annex.

ELSIOR (Cal.), Feb. 16.—[Correspondence of THE TIMES.] Elsior valley is situated in the west part of San Diego county, near its junction with Orange and San Bernardino counties. The average elevation of the valley above sea level is about 1300 feet.

Apricots, peaches, figs, prunes, olives, oranges and lemons of an excellent quality are grown here. The oranges and lemons are especially noticeable on account of their rich color and freedom from smut and scale.

As this is a comparatively new country these fruits are grown in limited quantities as yet.

The Woman's Annex of Elsior has got up a small citrus fair for the benefit of visitors. The exhibitors are: Charles Leech, Washington Navels, dried fruits; F. F. Painter, Washington and Australian Navels, seedling oranges, lemons; George Orr, oranges, olives, almonds, limes; James Schanck, bananas, Washington Navels; L. N. Duke, Sicilian lemons; Mrs. J. F. Jones, Navel oranges; W. Robinson, raisins, prunes, peaches; Mrs. Burges, green peppers and tomatoes just gathered from the vines; Mrs. Cameron, jellies and preserves; L. Yates, cotton; Mrs. Beck, pickles; Mrs. Dallimore, canned fruits; Mrs. Muller, paper-rolls and Mediterranean sweets; Mrs. Hazard, canned fruits.

Considering the number of people and the limited resources of the valley, the fair was an entire success.

Much praise is due the Woman's Annex for the work in this direction. The arrangements and designs were both tasteful and neat, showing much care in their construction.

Under management of Mr. C. H. Merrill of the Crawford House, White Mountains, N. H., who has been manager of The Raymond for four seasons. Many improvements have been made, and the hotel is now complete. Excellent railroad facilities between Los Angeles and The Raymond bring it within easy reach. Post office, business and social life are conducted in a manner that is creditable to the city. The hotel is a fine addition to the San Gabriel Valley, and is well worth the money spent in getting there. The manager is a man of great experience and knowledge, and is well qualified to manage the hotel.

## NEWS AND BUSINESS.

## The Weather.

SIGNAL OFFICE, LOS ANGELES, Feb. 17.—At 5:07 a.m. the barometer registered 29.91; at 5:07 p.m. 29.80. Thermometer for corresponding periods, 47° 54'. Maximum temperature, 57°; minimum temperature, 45°. Weather—Cloudy. Rainfall for season, 6.35.

## INDICATIONS.

SAN FRANCISCO, Feb. 17.—Forecast till 8 p.m. Wednesday.—For Southern California, fair weather, except light rain at San Diego.

The ditches of the Bear Valley Irrigation Company are being lined with asphaltum, shipped from Santa Barbara county.

The First Christian Mission will give a social on tomorrow. Thursday evening, at Union Hall, No. 1309 Grand avenue. All are invited.

The Southern California Bar Association will hold its annual meeting in Colton, March 17, and it is expected that fifteen bands will be present.—[Kingside Press.]

The Riverside Press complains that the citizens of that place are not showing a proper interest in the coming citrus fair, and adds that the committee which has called a meeting of orange-growers for Wednesday (today), will abandon the work unless they receive the hearty support of the people.

Rev. R. S. Cantine, D. D., will lecture Friday evening, February 20, at First M. E. Church, Broadway, for benefit of the W. F. M. society. Subject, "Angloamericans Abroad." Admission, 25 cents; tickets for sale at Merrill & Cook's, Seymour & Johnson's and McKoon & Gay's.

The Soqua Coal fields will within the next few days revolutionize the manufacturing interests of the entire Pacific Coast. The latest report from Col. Garcia, who is at present on the ground, is that the diamond drill now in operation there has passed through an anthracite bed twenty-five feet in thickness. The estimated value of such a discovery is hard to compute.—[The Los Angeles Times.]

The forthcoming concert of the Ellis Club will be given at the Grand Opera House, and not Turnverein Hall, as has been erroneously stated.

The Chinese exhibit fair leaves here the 19th inst. Particulars regarding to send Maj. Truman fresh exhibits will please send them in early Thursday morning.

There was no improvement in the condition of City Jailer Clayton yesterday. Owing to his advanced age, his friends are very uneasy as to the outcome of his case.

The exhibit-room of the Chamber of Commerce was crowded again yesterday. The register shows that over a thousand people have visited the exhibit during the past two days.

There are undelivered telegrams at the office of the Western Union Telegraph Company for T. F. Miller, Mrs. Joseph Huber, Frank Winters, care Col. E. W. Hewitt, W. Dennis.

Pearl Hinton, Maggie Bush and Hattie Dubois, the three female toughs, have been released on \$50 bail each. The trial of the women on a charge of vagrancy has been set for the 19th inst.

Mr. Elmer T. Troop sends the following estimate of rainfall during the late storm: For February 16, 2.42, for season, 6.81. A dispatch from Wildomar says the rainfall was 3.23 inches at the Santa Rosa ranch.

Officers Steele and Whaling raided an opium joint on Alameda street shortly after midnight, capturing the proprietor, Elmer Steele, and one visitor, Walter Lane, who were taken to the police station and locked up.

Miss Olaf Krarer, the little Esquimau lady, will deliver a lecture to the newsboys at Simpson Tabernacle. Miss Krarer will talk of her native country, Greenland, and the lecture will be both entertaining and instructive.

Mrs. Charlotte Perkins Stetson will address the Woman's Club this afternoon at 2 o'clock. Topic—Temple, Temple, Subject, "Who Owns the Children?" Admission is free, and everyone is invited.

Mrs. Hannah Rogers, widow of George W. Rogers, a veteran of the war of 1812, died at Compton, Thursday, February 12, aged 76 years. Mrs. Rogers was the mother of Davis Smith, whose wife, Mrs. Margaret Smith, died at Compton January 25. Both ladies were natives of England.

"Anglonamericans Abroad," by one of them, is the subject of a lecture to be delivered by Rev. Mr. Cantine at the Fort-street M. E. Church—Friday evening. Dr. Cantine is an entertaining talker, and the lecture will doubtless be an interesting one.

The Woodmen of this city are making preparations to receive their head consul, F. A. Falstaffing of Denver, Colo., who will be in the city Wednesday evening. A banquet at the Hollenbeck Cafeteria will be the programme Wednesday evening, when the officers-elect for the ensuing year will be installed. The camp in this city, only organized a few weeks ago, already has attained a membership of upwards of one hundred.

SCOTT'S EMULSION

OF PURE NORWEGIAN COD LIVER OIL.

I sometimes call it Bermuda Bottled, and many cases of CONSUMPTION, Bronchitis, Cough

or Severe Cold

I have CURE, with ease and the advantage is that the most sensitive stomach can take it. Another thing which commands it is the consumption produced by the Hypophosphites which it contains.

You will find it for sale at your Druggist's but see you get the original SCOTT'S EMULSION."
